Cindy Mense  
John Wulf, Asst. Director of Public Works

**CITY STAFF:**

Matt Malick, Director of Public Works

---

---

🚦 Virtual special meeting was called to order at 7:30pm.

Bill informed the committee his intentions of calling a special meeting was to discuss and vote to propose a recommendation to City of Clayton's Architectural Review Board (ARB) to amend Clayton's rules regarding street facing solar roof-top panels.

Bill read to the committee the following statement:

- In order to support and exemplify Clayton's sustainability goals and objectives, the Sustainability Advisory Committee recommends that the ARB amend Clayton's ordinance regulating roof-top solar panels; **allowing said panels to be visible from the public right-of-way**; thus, facilitating and encouraging the expanded use of carbon-free energy.

The committee members present had a general discussion regarding Bill's recommendation.

There was a motion to recommend this to the ARB and it passed on a voice vote with 4 of the 7 committee members present.

Matt informed the committee he will pass this along to Anna Krane, Director of Planning & Development for inclusion in a future ARB Agenda.

Next official Sustainability Meeting: May 26, 2022

Meeting adjourned at 7:38pm
